JOHN D. ROCKEFELLER. A most pleasing carmine rose flower of good size. One of the older favorites. Height 26". L.75	1.50	11.00
JOHN RUSKIN: An unusual medium height tulip of attractive design. Well known among tulip lovers. The flower is blended apricot, orange, pink and gold, large egg-shaped. Height 20". L.50	1.00	8.00
KANSAS: The most popular whites among the older varieties. A white that does not readily disappear from the flower shows. Height 24". M.	.60	1.20	8.50
KAUFMANNIANA: (botanical). White and yellow, pink outside, called the waterlily tulip, as the expanded flowers resemble a Nymphaea. The earliest to flower of all tulips. Used with great effectiveness in rock gardens, borders, etc. Height 6". E.90	1.80	13.00
KEIZERS KROON: One of the oldest tulips of its kind. You will find this beautiful early tulip in practically all gardens in Holland, and is in great demand in other countries, especially in the U.S.A. Splendid in rock gardens, where it will not go unnoticed, since its yellow-edged red flower is very showy. Height 12". E.90	1.80	13.00
KING GEORGE V.: A glowing salmon scarlet, shaded bright rose, blue star at base. One of the finest among cherry red and a gem in every way. The flowers are enormous and of great substance, carried on sturdy stem. Height 30". L.	1.00	2.00	15.00
KING HAROLD: Deep ox blood red, with purple black base. Similar in color to Eclipse, but smaller flower. Height 25". L.50	1.00	8.00
KING MAUVE: One of the latest creations, perhaps the latest in its unusual color. The rich purplish mauve flowers are of large size and pleasing form. Height 28". L.80	1.60	12.00
KORNEFOROS: The best of the Triumph Tulips, which captured high honors a few years ago in Holland. A beautiful clear red with white base. Very large flower carried on a very strong, tall stem. Height 26". L.60	1.20	8.50

NARCISSI or DAFFODILS

In order to have a beautiful bulb garden, Narcissi should be planted very freely. They thrive in practically any climate in the United States.

They are not only excellent for outdoors, but millions are used every year for forcing indoor. Their graceful form and beautifully shaped trumpets and cups, the long straight stems have made them favorites for cut flower purposes with every American gardener.

The following list, we find, consists of the most excellent choice of varieties available, suitable for garden or for forcing.

THREE LATEST NOVELTIES

Gen. Marshall: (yellow trumpet) This flower out-classes MacArthur. Superb golden yellow trumpet and perianth of enormous size, having beautiful form and of great substance, very graceful. Its strong texture, and lasting quality makes this flower a king among the daffodils. Late blooming.

Michigan: (barri) An outstanding improvement over Kentucky, this flower has a flat, clear yellow perianth, much overlapping. The expanded, rather shallow crown is dark orange red. It is of the short neck variety with a very strong stem.

The Commander: (barri) This flower is a great improvement over The Governor. Large beautiful flower with broad much overlapping perianth of fine symmetrical proportions of sulphur white. The immense flat crown is orange with an attractive frilled edge of deep orange red. You must agree with us that the color combination is very effective and outstanding.

Price: \$3.75 for 6; \$7.50 for 12; \$60.00 for 100

DAISY SCHAFFER: (leedsii) A giant in its class, the flower, resembling a giant trumpet, is 4 inches across with a 2 inch cup. The perianth is pure white with the cup opening primrose and turning to light canary yellow, deeper at the base. The stigma and styles being long, lemon yellow, add to the color harmony of this leader of flowers.	1.45	2.80	20.00
DICK WELLBAND: (incomparabilis) The flower of this plant has unusual long lasting qualities with the perianth being pure white and the cup a brilliant flame orange. The color does not fade but intensifies with age. The greatest beauty of this flower lies in the startling contrast between petals and cup.75	1.50	11.00
EMPEROR: (yellow trumpet) Primrose perianth with a darker trumpet. One of the older varieties, but still remaining very popular.75	1.50	11.00
EMPRESS: (bicolor trumpet) An old variety though still deservingly popular. Broad perianth with trace of gold down center of each cream white petal. Deep canary yellow trumpet.75	1.50	11.00
FORTUNE: (incomparabilis) Creamy yellow perianth of very solid texture. The crown, which is of great size and elegant form, opens at the mouth, is of glowing soft orange. Early strong grower, very popular.	1.50	3.00	23.00
FRANCISCA DRAKE: (incomparabilis) A strong growing flower having a pure white perianth of unusual substance, about an inch and a half wide, tinted gold at the base. The cup is golden yellow at the base, changing to flame orange at the frilled edge.65	1.25	9.00
FIRETAIL: (barri) A world wide popular flower having broad petaled creamy white perianth and large cup with scarlet orange frill.65	1.25	9.00
GLORIOUS: (poetaz) White perianth with orange eye, edged red. It is a tall flower, delightfully informal in habit. Sweet scented.65	1.25	9.00

	6	12	100
GERANIUM: (poetaz) A beautiful flower, considered one of the best poetaz recently created. Its pure white perianth and deep orange red cup, makes this flower extremely attractive.	.65	1.25	9.00
GOLDEN HARVEST: (yellow trumpet) Very popular golden yellow trumpet and perianth. Very early blooming, both in the garden and also in forcing.	.90	1.80	13.00
HELIOS: (incomparabilis) Creamy yellow perianth, star shaped, with a pale yellow cup. Very early. A beautiful variety, attractively produced, when placed in a clump near evergreens.	.75	1.50	11.00
INGLESCOMBE: Most outstanding double, purest yellow, which color it keeps until the last.	.90	1.80	13.00
INSURPASSABLE: (yellow trumpet) The name classifies this most beautiful flower very nicely. Both the perianth and trumpet are of a fine golden yellow.	.90	1.80	13.00
INSULINDE: A large, well shaped double flower composed of many creamy white petals of good size, with brilliant orange scarlet inner petals. It is stated to be one of the best double daffodils.	.90	1.80	13.00
JOHN EVELYN: (incomparabilis) The perianth is pure white, while the cup is lemon yellow and shirred to the base. Strong grower, free flowering. The perianth is about 4 to 5 inches across with a flat cup about 2" in diameter, densely frilled.	.75	1.50	11.00
KING ALFRED: A king among the fine varieties. Rich lustrous golden yellow throughout. Extremely vigorous in habit. The perianth often is 4 inches across with trumpet fully 2 inches.	.90	1.75	13.00
KILLEGREW: (incomparabilis) One of the latest novelty creations. The perianth is bright yellow with well overlapping petals, while the cup is bright orange red.	.65	1.25	9.00
LAURENS KOSTER: (poetaz) Well known hardy flower with cream white perianth and lemon yellow cup. Very free flowering. Recommended very highly.	.65	1.25	9.00
LADY DIANA MANNERS: (barri) A late creation of great beauty having lasting qualities, rather outstanding. The superb flower has a white perianth, with a red cup and yellow edge.	.65	1.25	9.00
LORD WELLINGTON: (yellow trumpet) This is one of the largest yellow trumpets of unusually strong texture and lasting qualities. The rich golden yellow trumpet is quite long. One of the finest.	.90	1.80	13.00

- MRS. BARCLAY:** (barri) This is an extremely showy flower and a very great favorite in the garden. The large flower has flat, reflexed broad petaled perianth of pale primrose, changing to pure white. The cup is deeply frilled of primrose yellow, with dainty orange picotee **.65 1.25 9.00**
- MRS. R. O. BACKHOUSE:** (leedsii) Called the famous pink daffodil. It is a long lasting, early flower. The informal perianth is ivory white and beautifully proportioned slim, long trumpet of apricot pink, changing to shell pink at the deeply fringed edge. **3.50 7.00 55.00**
- MRS. E. H. KRELAGE:** (white trumpet) White perianth and trumpet. The pristine purity of this flower, its balanced petalage, the graceful curve of fine trumpet brim are unforgettable. An excellent grower. **.90 1.80 13.00**
- NAOMI:** (barri) A very strong grower of excellent beauty. The perianth is ivory white with a beautiful golden yellow cup and red edge. We recommend this superb flower very highly. **.65 1.25 9.00**
- ORANGE GLOW:** (incomparabilis) The flowers are very large with a broad, flat yellow perianth approximately 5 inches across. The cup is deep glowing orange, finely frilled. An outstanding daffodil of fine proportions. **.65 1.25 9.00**
- PRESIDENT LE BRUN:** (bicolor trumpet) This outstanding, long lasting flower has an informal perianth, pure white, while the beautiful large cup is a delicate orange. This extremely attractive flower is considered one of the best in its class and of recent creation. **2.50 5.00 45.00**
- PHEASANT EYE OR RECURVUS:** (poeticus) An old favorite, but not forgotten. Pure white perianth, somewhat reflexing with a cup margin deep scarlet, sweet scented. Excellent for massing in border or in lawns or naturalizing. . . **.65 1.25 9.00**
- QUEEN OF THE BICOLORS:** (bicolor trumpet) Actually a queen in its class. Most excellent pure white perianth with canary yellow trumpet, fine proportioned. **1.25 2.50 18.00**
- RED GUARD:** (poetaz) Perianth of deepest golden yellow overlaid with salmon, and cup of fiery red. You will agree with us that the color combination makes this a most pleasing and beautiful flower. Extremely popular and good growing and lasting qualities. **.75 1.50 11.00**

RED CROSS: (incomparabilis) Extra large and strong flower, opening flat, primrose yellow perianth, and deep yellow cup, densely frilled. Substantial and long lasting, ideal for garden or exhibition.75	1.50	11.00
REMBRANDT: (yellow trumpet) Considered to be an improvement over King Alfred. Named after the famous painter, it duly lives up and deserves to carry such name. Unusual strong texture, therefore extremely hardy. Its stem is sturdier than that of King Alfred. The flower, golden yellow throughout, has a perianth of 4 inches across and a trumpet 2 inches long. Strongly recommended.90	1.75	13.00
SIR WATKIN: (incomparabilis) Perianth primrose yellow, large and well formed yellow cup, tinged deep yellow. A very hardy variety and a persistent bloomer.65	1.25	9.00
SCARLET GEM: (poetaz) A very interesting flower with its most artistic contrast in color. The flowers, five or more, attractive and finely formed have petals of pure white with brilliant orange cup.90	1.75	13.00
SCARLET ELEGANCE: (incomparabilis) One of the finest daffodils of its kind. The substantial flowers are large and have well formed, dark yellow perianth, with an intensely brilliant orange scarlet cup.90	1.75	13.00
TEXAS: This flower is one of the best in the new varieties, considered the best double. A tall, late blooming with very large flowers, kept erect by its sturdy stem. Pale yellow interspersed with brilliant orange. A must on your 1947 Narcissi list.	2.50	5.00	45.00
THE STAR: (poeticus) A new creation of superb distinction, one of the better in its class. The beautiful white perianth is contrasted by the very large yellow and red eye.65	1.25	9.00
THALIA: (triandus) An unusual, but extremely attractive flower of silvery white. The recurving petals and the angle of the trumpets are quite different from the usual short cupped daffodil.90	1.75	13.00
TREDORE: (barri) A later creation, considered to be one of the best and most striking of the new novelties. The perianth is soft yellow with a striking symmetrical open cup of fiery red and a soft salmon flush extending to the throat.75	1.50	11.00
TREVITHIAN: (jonquilla hybrid) The flowers are exceedingly long lasting and withstand heat and wind better than any other daffodil. Its very fragrant flowers appear with two or more on one stem, and are pale lemon yellow with clear yellow cup.75	1.50	11.00

TWINK: (double) The petals alternating a soft primrose and clear orange. The petals are arranged to give the flower a most attractive appearance. Most of us are acquainted with this flower and know it to be free flowering and hardy. **.90 1.75 13.00**

YELLOW POPPY: (incomparabilis) A fine daffodil of recent creation, having won popularity quicker than most varieties. The flower of very good size has a pure yellow perianth with the same color cup, deepening slightly at the frilled edge. The entire flower being finely proportioned is supported by a tall stem with a strong neck. **.65 1.25 9.00**

DAFFODILS FOR NATURALIZING

We have available a variety of mixed daffodils suitable for Garden Display, Wooded sections, or Cutting. These bulbs may be planted in practically any soil, providing proper drainage is possible. Therefore, do not plant them in spots where water may collect. Plant them about 6 to 8 inches deep. We suggest that you order these bulbs early, since the quantity available is limited at the price listed. Sorry, but we cannot take orders for less than 50.
